PROFESSIONAL SPECIALISATION

I have PhD in Natural Resource and Environmental Economics, M.A. in Economics and BSc in Agriculture. At KIPPRA, I joined as **Policy Analyst in July 2000** and was promoted to **Senior Policy Analyst and Programs Coordinator in July 2003**. As Programs Coordinator my work included:

- ❑ Coordination of seminars and publications,
- ❑ Linkage with donors and preparation of research proposals for funding,
- ❑ Coordination of the Institute's public policy capacity building programs,

- ❑ Acting in the absence of the Executive Director.

It also involved policy research in such sectors as agriculture, forestry, fisheries, wildlife management, and tourism. In addition, I have conducted research in various other areas of economics including solid waste management, employment policy, trade in services and in environmental goods and services, multilateral trade issues particularly with respect to agriculture and services, technology and foreign direct investment, and regional integration.

I was the **Acting Executive Director between December 14, 2005 and end of May 2006**, and

then the **Executive Director between June 2006 and May 2012**. My duties as Executive Director involved day to day management of the Institute, motivating and optimally deploying staff, secretary of the Board of Directors, executing decisions of the Board, spokesperson for the Institute, preparing strategy documents and annual work plans for approval by the Board, fundraising and initiating development projects for the Institute, and providing technical oversight over the Institute work.

Before joining KIPPRA, I taught courses on microeconomics, advanced research methods (including econometrics and statistics), and various topics in environmental and natural resource economics at the **School of Environmental Studies, Moi University**, and sometimes supervise some doctoral students in the area of environmental and natural resource economics.

My duties as Managing Director of KenInvest are similar to those I discharged as Executive Director of KIPPRA, with the only difference being the mandate of the Authority. The mandate of KenInvest is to promote investments in Kenya from domestic and foreign investors, facilitate investors who have decided to invest in the country, provide after care services to investors once they have already established themselves, and to advocate for policies that promote investments.
